

## EASYBARRIER **WALL**

## STOREHOUSE PROTECTION

EASY BARRIER WALL is a modular perimetral protection system aimed at adapting storing structures to current regulations.

art. 110 - double joining plate

art. 110K - single joining plate

art. 109 - panel fastening plate

art. 119 - Klips plate

The Klips plate (Patent Pending) allows frontal fastening of mesh panels with 40x40 mesh size to a supporting structure. The Klips plate can be snapped to a panel wire and remains captively bound thereto, as prescribed by the regulations.
